

The Root explorers

Down, down, down we go,
Underneath the grassy show!
Tiny roots, a fuzzy bunch,
Hold the plant up, make a punch!

They drink water, nice and deep,
While the plant above does sleep.
Roots explore, they never rest,
To keep the plant at its best!

Underground, they make a mess,
But a happy, healthy guess!
Roots are strong, a secret guide,
In the earth, they bravely stride!
